Kecamatan Balige, North Sumatra, Indonesia

Fresh graduate in Information Systems from Institut Teknologi Del with experience in web development and software testing through academic projects and internship. Familiar with functional, integration, system, and API testing using tools such as Postman and Katalon. Experienced in developing web applications, which provides an understanding of application functionality and system behavior. Interested in pursuing a career in Quality Assurance and software testing.

Education

Institut Teknologi Del - Laguboti, North Sumatra, Indonesia.

Sep 2022 - Aug 2026

Bachelor of Information Systems

GPA: 3.23/4.00

Relevant Coursework: Web Application Programming and Testing, Software Engineering, System Analysis and Design, Database, Object-Oriented Programming, Computer Networks, Information Technology Audit, Enterprise Resource Planning.

Work Experiences

PT Telkom Indonesia ROC 1 - Medan

Jun 2025 - Aug 2025

Website Developer | Internship

- Developed a web application for monitoring recurring Wi-Fi outages using Laravel, SQL Server, and REST API.
- Performed unit testing to verify application functionality
- Conducted User Acceptance Testing (UAT).
- Created user manual documentation for system usage.

Project Experiences

Project Testing Online Learning Website SSC Balige

Mar 2025 - Jun 2025

Software Testing

- Created test cases based on software requirements documented in the SRS.
- Performed Black Box, Functional, Integration, and System Testing for authentication, user management, learning materials, and forum features.
- Performed regression testing after bug fixes and system changes to ensure existing functionality remained intact.
- Performed API testing using Postman for the Laravel backend, including request/response validation and error handling.
- Executed positive and negative test scenarios.
- Reported bugs and test results.

Project Website Connect Alumni

Aug 2024 - Dec 2024

Backend Developer & System Analyst

- Developed a web platform using Laravel and Jetstream, emphasizing the MVC architecture and REST API for efficient data management.
- Conducted system analysis, creating flowcharts, process diagrams, and data models to support design and functionality.
- Tested the web application using Postman and Katalon to ensure API functionality and system reliability.

Project Development Market Sistem

Jun 2024 - Jul 2024

Software Developer.

- Developed a market management and Point of Sale (POS) application using Java to support product management, sales transactions, and application workflows
- Designed functional user interfaces using SceneBuilder and integrated the application with a MySQL database.
- Implemented end-to-end transaction workflows and database interactions, providing hands-on experience in understanding application functionality and system behavior.
- Tested application functionality to ensure performance and usability.

Skills & Languages

- **Programming Languages:** Java, Python, SQL, PHP
- **Testing Tools & Automation:** Postman, Katalon
- **Test Execution:** Manual & Automated Testing, Test Case Design
- **Database:** MySQL
- **Others:** Documentation, GitHub/Git, SDLC, Scrum(Agile)
- **Soft Skills:** Critical Thinking, Problem Solving, Teamwork
- **Languages:** Indonesian (Native Speaker), English (Upper-Intermediate).

Certifications

• Associate Data Scientist - National Professional Certification Board (BNSP)	Dec 2025 - Dec 2028
• TOEFL ITP (Score 547)	Aug 2025 - Aug 2027
• Learn the Basics of Structured Query Language (SQL) - Dicoding	Aug 2024 - Dec 2027
• Python Programming Fundamentals - Dicoding	Dec 2023 - Dec 2026
• Problem Solving (Basic) Certificate - HackerRank	Aug 2024

Organizational Experience

BEM Dept. Facilities and Infrastructure - Institut Teknologi Del <i>Treasurer</i>	Aug 2024 - Aug 2025
• Supported project coordination by managing departmental budgets, tracking expenses, and ensuring resource allocation aligned with campus event goals.	
Inauguration, Dies Natalis, and Graduation - Institut Teknologi Del <i>Event Escort</i>	Sep 2023
• Assisted and accompanied guests during institutional events, including Dies Natalis, graduation, and new student orientation. Coordinated with committees to ensure smooth event flow and guest experience.
